KWS

Center stage for yield and drought tolerance!

Hybrid Profile

Management Tutor

Ideal Seeding Depth: **1 inch**

Seeding Rate/Acre: **0.8 units**

1 unit = 1 million viable seed

Seed Date: **September**

Nitrogen: **1.2 units of N/bu**

Field Travel: **Before stem elongation**

Key Agronomics

Grain Yield: **high**

Harvest Index: **med**

Straw Yield: **med**

Winter Hardiness: **very high**

Heading Date: **mid-late**

Plant Height: **average**

Straw Strength: **very good**

Root Development: **very large**

Ability to Tiller: **very high**

Biomass Production: **med**

Falling Number: **high**

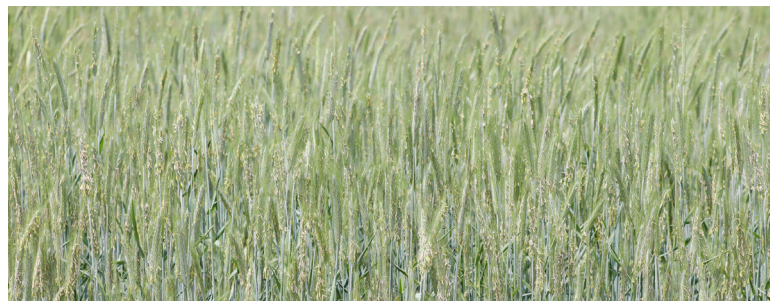

Disease Profile

Ergot: **low**

Fusarium: **low**

Leaf Rust: **mid**

Powdery Mildew: **low**

KWS Bono is an excellent feed type hybrid that is also widely used by the food industry for flour, breakfast cereals, and distilling or malt.
